Customer Reviews

Our kids devour these Rainbow Magic books. I got this one as a gift for a first-grade neighbor who plays basketball and he loved it - read it that evening - and then brought it back for my granddaughter to read too.

My daughter is headed into 3rd grade and is a very reluctant reader. I bought her several of the sports-themed books and she has devoured them! I'm so happy to have found a great series that my daughter is begging to read. They are certainly not award-winning novels, but anything that gets her excited to read is award-winning in my book. Hooray!

My 8-yr. old granddaughter loves books like these. They are easy to read but have interesting stories. They are fine for any girl who can read well in the second grade.

Our grand daughter is very taken by this series of books. I was very happy to get this one for her.

I would consider it if u like I give it 5 stars in the series keep up the good work daisy meadows

Grand daughters birthday present. She loves it and the whole series.
