Beaker, Bubbles & The Bible #2: Even More Bible Lessons From The Science Lab (Beakers, Bubbles And The Bible)

Synopsis

Dr. Fran Bunsenburner, a.k.a. Tina Houser, is back and better than ever! She's ready to show how disappearing eggshells, light bulbs in microwaves, spinning chairs and elephant toothpaste all relate to the Bible. Step into her special laboratory where kids will see things bubble over, shoot o into the sky, shrink, hang upside down mysteriously, and more!Most importantly, they'll observe science experiments that all help them learn more about the Word of God. Beakers, Bubbles & the Bible 2 includes 53 all-new experiments with full-color pictures and step-by-step instructions to walk leaders through each lesson. This book is appropriate for children's ministry workers, homeschoolers, parents, grandparents, pastors, or anyone who wants a fun, unique, attention-grabbing way to teach the Bible. The science experiments add pizazz to teaching time and provide a concrete object lesson to help kids remember what they learn.
