Customer Reviews

Please note the books are read by the 18 children I tutor. They are low income at risk children that I help with homework and reading as they don't have anyone at home that can assist them. Not only have they request some of these books but they have read them over and over. Thank you .

I love this series of "True Books" on American History. The pictures are vivid and the facts are poignant. This is a gret series for teaching out of to kids who are just learning their American history. I use these excerpts from these books for my Constitution Week displays for a committee I'm belong to in Daughters of the American Revolution. See also their books on The Constitution and The Bill of

Rights!

This is a great resource for my students as they learn about America and its history. This is fun and easy to read.

I have used this book already to help teach US History to students with AdHd. They love the graphics and short summaries of information,.

Very informative and easy to read for a child (mine is 7).
