The Story Of The World: History For The Classical Child: Early Modern Times: Tests And Answer Key (Vol. 3) (Story Of The World)

Synopsis

History has been taught in a boring way for far too long. A subject as moving and powerful as humanity's past should be inviting, and when it is told well, it is. Susan Wise Bauer succeeds in telling the captivating story of history with her best-selling history series. Parents and young readers have fallen in love with her narrative history, *The Story of the World*, and its accompanying Activity Book. Now teachers and home educators can take advantage of a new and valuable learning tool: the Tests and Answer Key package. Included are 42 tests: one for each chapter of *The Story of the World*. Perfect for evaluating comprehension and retention. The narrative format of *The Story of the World* helps children remember the famous people, places, and events in history. These tests offer you an easy way to make sure that your child is absorbing the important events from world history. A combination of multiple choice, matching, fill-in-the-blank, and short writing samples allow you to evaluate your child's retention and comprehension of key events in *The Story of the World*. The Tests package contains an answer key for all tests. These easy-to-use tests and answer keys, successfully used by hundreds of parents and teachers, provide an objective method for measuring retention of key facts, figures, and events from history. A combination of sequencing, matching, short-answer, and essay-style questions gives students a chance to show what they've learned. Used with *The Story of the World* Text Book and Activity Book (sold separately), the Test and Answer Key gives educators a complete history curriculum for their elementary school students.

Customer Reviews

The problems: We've found two mistakes in the answer key so far (through Chapter 9), and I think that once or twice the questions have been a little too esoteric based on what's covered in the chapter. Generally speaking, though, the questions are written at a challenging but appropriate level for our 8-year-old (although I can't imagine using the tests for a child any younger). These little problems do not outweigh the usefulness of the tests in general. We've found them helpful enough that I would still recommend them to others as a means of ensuring that a student is comprehending the materials in the Story of the World text.

The Story of the World is a great homeschool source and these tests help to validate what the pupil is learning and helps to document what you teach.

This test book was so helpful when I was using the Story of the World Vol. 3 history book. It saved me so much time when I didn't have to come up with my own tests. I really liked the mix of fill in the blank, multiple choice, and long answer questions for each chapter. I'll definitely use it when we study this era again in a few years (with my younger kids...)

I like this book for a "test" book for my children. It is easy to understand for the children when they complete the: fill in the blank, true and false, or essay questions. Would recommend this book with the activity book.

I am a homeschooler of a 9 year old and these books make history fun. My son loves to read them like a novel and when I grade his tests, he retains the information at a high rate. I think this is due to the narrative style she uses.

We love the Story of the World series for History in our homeschool. We started with this series with the very first one, and will probably use them all. It's chronological and very easy to understand. The tests can be pulled out and kept in a folder for review.

great work. She produces excellent and thorough work for teachers to use that are not immersed in indoctrination, but backed in everyway with comprehensive study of history and the evidence that

has been produced by archaeologists.

This test book accompanies the literature of Early Modern Times, and it is another really great book. We use it as an open book test after reading the entire history book to our children. This way our children are reviewing every chapter on their own, and they are able to retain more information from each story.
