# Assumptions Harden Into Facts: The Book

## Synopsis

What do we know about The Law of Assumption? Does everyone understand it? Does everyone think it is a Law? Are there different kinds of Assumptions? This book, which is a compilation from the books and lectures of someone who I personally consider The World's Greatest Mystic, Neville Goddard, explains, as no one else that I know of, what The Law of Assumption is, and how, when we understand it, we can shape our reality through the application of it in our lives. Neville Goddard (1905-1972) is a man who has left his mark on the world, with subject matter, that during his lifetime, few others seemed to give their attention to. That is changing. The world is waking up and one day Neville Goddard may get more credit for it than he ever did during his lifetime. And it will be well deserved. - David Allen
