Customer Reviews

I have read all both of the Damn You Auto Correct books. This one was funny, but not as funny as the first one. There were only one or two that really made me laugh out loud, whereas the first one had me laughing the entire book. It is great for a one-time read, but I don't think I would ever pick it up again.

My daughter has seen these posts on some social media site, and would read them aloud to me, but I never found them very funny. I guess you have to read them yourself, because the texts in this book are mostly funny. I can't say they all are, but for the most part, they are funny!

Such a great compilation, totally cracks me up. The kind of book you can pick up anytime and have a good laugh. We've all seen silly autocorrects in our own life, but these are the best of the best.

I love to read these, and it made me laugh till my sides hurt! This is for anyone entertained by funny autocorrects.
