The Secure SAP NetWeaver Portal

Synopsis

SecurIntegration GmbH is an independent SAP security consultancy acting on an international scale from both their Cologne headquarters in Germany and their global network of branch offices in Walldorf, London, Barcelona, Singapore and Palo Alto. In 2007, SAP Service Partner SecurIntegration was awarded the title of Special Expertise Partner for Governance, Risk and Compliance (GRC). The company is specialized in the fields of SAP NetWeaver authorizations, SAP security audits, the design of secure enterprise portals and Single Sign-On. Company services focus on SAP security issues, covering consultancy, training and solution finding. The team of SecurIntegration authors have merged their SAP NetWeaver Portal design, development and operation experience into this book. SAP NetWeaver Portal for your security Securing corporate information and business processes is a major challenge companies will face in the future. This book strives to provide businesses with valuable hands-on help on how to plan and implement a secure SAP NetWeaver Portal. The team of authors ushers their readers along from the basics and prerequisites of a business portal, moving on to the topics of - Portal infrastructure - Monitoring & logging - User management - Authentication - Single Sign-On - Roles and authorizations - Knowledge management and, last but not least, to five solution case studies presenting real-life scenarios of how a secure SAP NetWeaver Portal can be implemented.

Customer Reviews

The book "The Secure SAP NetWeaver Portal" by SecurIntegration is a helpful and

comprehensively written guide to the secure implementation of an enterprise portal. In the introduction the reader familiarizes with the most important aspects in the areas of enterprise portals and enterprise security. Thereby focus is placed on the identification of threats and risks as well as the legal and technical conditions that need to be considered. In the following the infrastructure of the portal and the various possibilities for authentication on the SAP NetWeaver Portal are described. Here risks and requirements are compared with current techniques and processes and are critically illuminated. In the concluding chapters of the book five scenarios are given that describe the requirements and solutions for the implementation of a secure enterprise portal. Here the reader may find lots of information for his or her individual portal installation.
